

WyChecks Specifications

Features:

- Supports multiple network printers through a secure device
- Provides centralized, secure laser check printing and/or signing
- Built-in print server (similar to HP Jet Direct)
- Web-based administration for simple program updates
- Archives check images as streamlined PDFs
- Uses secure blank check stock (with MICR check printing option) or pre-printed check stock
- Automatically prints and signs checks in a single pass directly off printer
- Allows up to 3 signatures per check
- Signature titles and backgrounds available
- Allows optional protected amount-only printing (when you do not want a signature)
- Supports many account types (e.g., share draft, loan, cashier's check, money order, accounts payable, purchase order, etc.)
- Allows counting of signed checks, voided checks, or all checks
- Provides key switch for enhanced security, limiting access to programming parameters
- Suppresses signatures for checks exceeding pre-determined dollar amount
- Adds forge-resistant protected graphic amount while printing
- Provides amount limits (e.g. add signature at amount, suppress signature at amount, VOID at amount)
- Protects against forgery and alteration
- Produces manual check without a computer if your computer system is down
- Eliminates signature plates, rubber stamps and continuous form signers
- Provides a simple upgrade path for dot matrix customers to migrate to laser check printing

MICR Laser Check Printing included:

- Adds forms, graphics, logos
- Can produce non-negotiable check copies
- Compatible with both the Elite and Premier
- Operates with HP-compatible PCL5 laser printers
- Saves money by using blank safety paper instead of pre-printed check stock
- Eliminates the need for separate check stock for each bank account
- Prints a MICR line which meets ABA specifications (with MICR toner cartridge)
- Supports company and bank logos, forms, and graphics
- Prints check copies with "COPY" in place of signature and "NON-NEGOTIABLE" in MICR line
- Copy stock can be pulled from alternate trays
- Prints check numbers (even for customers who do not send check numbers)
- Check numbers are always in sequence
- No checks to void when printer jams
- No tractor feeds to remove
- Eliminates "bursting" of continuous form checks
- Autosense automatically recognizes which form to print

WyChecks Specifications

Image Archiving included:

- Archives PDF images of check data to a Windows-based PC (available only for laser printer output)
- Converts data transparently as it's printed
- Compatible with both the Omni and Premier
- Works with MICR Laser Check Printing or Dot Matrix to Laser Conversion (dot matrix output not supported)
- Requires Windows 2000 (or greater) PC
- Data output must be PCL5 compatible

Compatibility:

- No computer hardware or software changes required
- Works with any HP-compatible laser printer supporting PCL5
- Dot Matrix to Laser conversion supported emulations include: Epson FX, Epson LQ, IBM Proprinter, Okidata Microline, DEC
- 10/100BaseT Ethernet
- Print server supports NetBIOS, LPR/LPD and Direct TCP (Raw 9100) networking protocols

Each WyChecks unit includes:

- 2 signatures
- 2 check account/applications (e.g. share, loan, cashier's, accounts payable, etc.)
- 1 print station license
- 90-day factory warranty
- MICR laser check printing
- Dot matrix to laser conversion
- * Additional signatures, custom logo prefixes, applications, and network printing licenses available for an additional charge.
